

### **ATS-PHA Early Career Award**

One grant available for 2027  
\$50,000 for one year

***Target audience:***

Early-career investigators

The focus of the ATS-PHA Early Career Award is to support the career of a junior investigator interested in pulmonary hypertension (PH) research who is likely to make a strong and sustained impact in PH research.

Areas of interest for proposals include:

- investigating the pathophysiology of PH
- elucidating mechanistic pathways
- identifying novel therapeutic targets or biomarkers in adult or pediatric pulmonary hypertension

The project should have potential applicability to human pulmonary vascular diseases.

Applicants may request up to \$50,000 for one year for salaries or supplies or a combination thereof.

Indirect costs are not supported.

This grant is co-funded by the [Pulmonary Hypertension Association](#) and ATS.
